## 1 TCF/TEF Platform - Comprehensive Documentation

### 1.1 □ Documentation Overview

This repository contains comprehensive documentation for the TCF/TEF preparation platform, organized by sections and functionality.

### 1.2 □ Platform Architecture

The TCF/TEF platform is built with a three-tier architecture:

- **User Section:** Student-facing interface for learning and test preparation
- **Manager Section:** Operational management interface for content and user oversight
- **Admin Section:** System administration and platform management

### 1.3 □ Documentation Sections

#### 1.3.1 1. User Section Documentation

- Complete user interface documentation

- Feature specifications and user flows
- API endpoints and data models
- User experience guidelines

### 1.3.2 2. **Manager Section Documentation**

- Manager role definitions and permissions
- Content management workflows
- User oversight and analytics
- Operational procedures

### 1.3.3 3. **Admin Section Documentation**

- System administration guide
- Platform configuration
- User and content management
- Security and compliance

### 1.3.4 4. **Technical Documentation**

- Architecture overview
- Database schema
- API documentation
- Deployment guide

### 1.3.5 5. **Development Guide**

- Setup instructions
- Development workflow
- Testing procedures
- Contribution guidelines

## 1.4 **□ Quick Start**

1. **Installation:** See [Development Guide](#)
2. **Running the Application:** `pnpm dev`
3. **Access Points:**
  - User Interface: `http://localhost:3000`
  - Manager Interface: `http://localhost:3000/manager`
  - Admin Interface: `http://localhost:3000/admin`

## 1.5 **□ Documentation Structure**

Each section contains: - **Functional Requirements:** Detailed feature specifications - **User Stories:** User interaction scenarios - **Technical Specifications:** API endpoints, data models, security - **UI/UX Guidelines:** Design patterns and user experience -

**Testing Procedures:** Quality assurance and testing - **Deployment Guide:** Production deployment instructions
