

AURA Learning Platform - Backend API Documentation

Base URL

```
http://localhost:3001/api
```

Authentication

Most endpoints require JWT authentication via the **Authorization** header:

```
Authorization: Bearer <access_token>
```

1. Authentication Endpoints (**/api/auth**)

Register User

- **Method:** **POST** **/auth/register**
- **Auth:** None
- **Request Body:**

```
{
  "email": "user@example.com",
  "password": "Password@123",
  "firstName": "John",
  "lastName": "Doe"
}
```

- **Response:** { success: true, data: { user, tokens: { accessToken, refreshToken } } }

Login

- **Method:** **POST** **/auth/login**
- **Auth:** None
- **Request Body:**

```
{
  "email": "user@example.com",
}
```

```
"password": "Password@123"
}
```

- **Response:** { success: true, data: { user, tokens: { accessToken, refreshToken } } }

Refresh Token

- **Method:** POST /auth/refresh
- **Auth:** None
- **Request Body:** { refreshToken: "..." }
- **Response:** { success: true, data: { accessToken, refreshToken } }

Verify Token

- **Method:** GET /auth/verify
- **Auth:** Required
- **Response:** { success: true, data: { valid: true, user } }

Get Profile

- **Method:** GET /auth/profile
- **Auth:** Required
- **Response:** { success: true, data: { user } }

2. Courses Endpoints (/api/content-management/courses)

Get All Courses

- **Method:** GET /content-management/courses
- **Auth:** Optional
- **Query Parameters:**
 - **category:** GRAMMAR, LISTENING, READING, VOCABULARY, WRITING, ORAL, TCF_TEF
 - **level:** A1, A2, B1, B2, C1, C2
 - **subscriptionTier:** FREE, ESSENTIAL, PREMIUM, PRO
 - **search:** Search term
 - **page:** Page number (default: 1)
 - **limit:** Items per page (default: 20)
- **Response:**

```
{
  "success": true,
  "data": {
    "content": [
      {
        "id": "...",
        "title": "...",
```

```

        "description": "...",
        "level": "A1",
        "category": "GRAMMAR",
        "subscriptionTier": "FREE",
        "duration": 30,
        "tags": [],
        "isPublished": true,
        "createdBy": { "id": "...", "firstName": "...", "lastName":
"...", "role": "ADMIN" },
        "lessons_data": [
            {
                "id": "...",
                "title": "...",
                "content": "...",
                "videoUrl": "...",
                "duration": 10,
                "order": 1
            }
        ]
    },
    "total": 13,
    "pages": 1
}
}

```

3. Tests Endpoints (/api/tests)

Get All Tests

- **Method:** GET /tests
- **Auth:** Optional
- **Query Parameters:**
 - category: GRAMMAR, LISTENING, etc.
 - level: A1, A2, B1, B2, C1, C2
 - tier: FREE, ESSENTIAL, PREMIUM, PRO
 - page: Page number
 - limit: Items per page
- **Response:** { success: true, data: [...], pagination: { page, limit, total, totalPages } }

Get Tests (Content Management)

- **Method:** GET /content-management/tests
- **Auth:** Optional
- **Query Parameters:** Same as above
- **Response:** Same structure as courses endpoint

Start Test

- **Method:** `POST /tests/:testId/start`
- **Auth:** Required
- **Response:** `{ success: true, data: { attemptId, testId, startedAt } }`

Submit Test

- **Method:** `POST /tests/submit`
- **Auth:** Required
- **Request Body:**

```
{
  "attemptId": "...",
  "answers": [
    { "questionId": "...", "answer": "..." }
  ]
}
```

- **Response:** `{ success: true, data: { score, totalQuestions, percentage } }`
-

4. Posts Endpoints (`/api/posts`)

Get All Posts

- **Method:** `GET /posts`
- **Auth:** Optional
- **Query Parameters:**
 - `page`: Page number
 - `limit`: Items per page
 - `sortBy`: createdAt, likes, comments
 - `sortOrder`: asc, desc
- **Response:** `{ success: true, data: [...], pagination: {...} }`

Create Post

- **Method:** `POST /posts`
- **Auth:** Required (Manager/Admin only)
- **Request Body:**

```
{
  "title": "...",
  "content": "...",
  "excerpt": "...",
  "status": "PUBLISHED",
}
```

```
"visibility": "PUBLIC"
}
```

- **Response:** { success: true, data: { post } }

Like Post

- **Method:** POST /posts/:postId/like
- **Auth:** Required
- **Response:** { success: true, data: { liked: true/false } }

Add Comment

- **Method:** POST /posts/:postId/comments
- **Auth:** Required
- **Request Body:** { content: "..." }
- **Response:** { success: true, data: { comment } }

Get Post Comments

- **Method:** GET /posts/:postId/comments
- **Auth:** Optional
- **Response:** { success: true, data: [...] }

5. Messages Endpoints (/api/messages)

Get Unread Count

- **Method:** GET /messages/unread-count
- **Auth:** Required
- **Response:** { success: true, data: { count: 5 } }

Get Messages

- **Method:** GET /messages
- **Auth:** Required
- **Query Parameters:**
 - **page:** Page number
 - **limit:** Items per page
 - **type:** received, sent
- **Response:** { success: true, data: [...], pagination: {...} }

Send Message

- **Method:** POST /messages
- **Auth:** Required
- **Request Body:**

```
{
  "receiverId": "...",
  "content": "..."
}
```

- **Response:** { success: true, data: { message } }
-

6. Users Endpoints (/api/users)

Get Profile

- **Method:** GET /users/profile
- **Auth:** Required
- **Response:** { success: true, data: { user } }

Update Profile

- **Method:** PUT /users/profile
 - **Auth:** Required
 - **Request Body:** { firstName, lastName, profileImage, ... }
 - **Response:** { success: true, data: { user } }
-

7. Home/Dashboard Endpoints (/api/home)

Get Dashboard Data

- **Method:** GET /home/dashboard
- **Auth:** Required
- **Response:** { success: true, data: { stats, recentCourses, upcomingSessions } }

Get AI Messages

- **Method:** GET /home/ai-messages
 - **Auth:** Required
 - **Response:** { success: true, data: { greeting, motivation, weather } }
-

Error Responses

All errors follow this format:

```
{
  "success": false,
  "error": {
    "message": "Error description",
    "code": "ERROR_CODE"
  }
}
```

```
}  
}
```

Common Status Codes

- **200**: Success
 - **201**: Created
 - **400**: Bad Request
 - **401**: Unauthorized
 - **403**: Forbidden
 - **404**: Not Found
 - **500**: Internal Server Error
-

User Roles

- **USER / STUDENT**: Regular student
 - **JUNIOR_MANAGER**: Can create courses and posts
 - **SENIOR_MANAGER**: Can manage other managers
 - **ADMIN**: Full system access
-

Subscription Tiers

- **FREE**: Free tier
 - **ESSENTIAL**: Essential subscription
 - **PREMIUM**: Premium subscription
 - **PRO**: Pro subscription
-

Course Levels

- **A1, A2**: Beginner
 - **B1, B2**: Intermediate
 - **C1, C2**: Advanced
-

Course Categories

- **GRAMMAR**: Grammar
 - **LISTENING**: Listening comprehension
 - **READING**: Reading comprehension
 - **VOCABULARY**: Vocabulary
 - **WRITING**: Writing
 - **ORAL**: Oral expression
 - **TCF_TEF**: TCF/TEF exam preparation
-

11. Favorites Endpoints (/api/favorites)

Get User Favorites

- **Method:** GET /favorites
- **Auth:** Required
- **Query Parameters:**
 - **page** (optional): Page number (default: 1)
 - **limit** (optional): Items per page (default: 20)
 - **contentType** (optional): Filter by type (COURSE, TEST, POST, LIVE_SESSION, etc.)
 - **folder** (optional): Filter by folder
 - **search** (optional): Search in notes and tags
- **Response:**

```
{
  "success": true,
  "data": {
    "favorites": [
      {
        "id": "fav_123",
        "contentId": "course_456",
        "contentType": "COURSE",
        "folder": "My Courses",
        "tags": ["grammar", "beginner"],
        "notes": "Great course!",
        "createdAt": "2024-01-15T10:30:00Z"
      }
    ],
    "pagination": {
      "page": 1,
      "limit": 20,
      "total": 45,
      "totalPages": 3
    }
  }
}
```

Add to Favorites

- **Method:** POST /favorites
- **Auth:** Required
- **Request Body:**

```
{
  "contentId": "course_456",
  "contentType": "COURSE",
  "folder": "My Courses",
}
```

```
"tags": ["grammar", "beginner"],
"notes": "Great course!"
}
```

- **Response:** { success: true, data: { favorite: {...} }, message: "Item added to favorites successfully" }

Check if Item is Favorited

- **Method:** GET /favorites/check
- **Auth:** Required
- **Query Parameters:**
 - **contentId** (required): Content ID
 - **contentType** (required): Content type (COURSE, TEST, POST, etc.)
- **Response:**

```
{
  "success": true,
  "data": { "isFavorited": true }
}
```

Remove from Favorites

- **Method:** DELETE /favorites/{favoriteId}
- **Auth:** Required
- **Response:** { success: true, message: "Item removed from favorites successfully" }

Get Favorite Statistics

- **Method:** GET /favorites/stats
- **Auth:** Required
- **Response:**

```
{
  "success": true,
  "data": {
    "totalFavorites": 45,
    "byType": {
      "COURSE": 20,
      "TEST": 15,
      "POST": 10
    }
  }
}
```

Get Favorite Folders

- **Method:** GET /favorites/folders
- **Auth:** Required
- **Response:**

```
{
  "success": true,
  "data": {
    "folders": [
      {
        "id": "folder_123",
        "name": "My Courses",
        "description": "Courses I'm taking",
        "color": "#2ECC71",
        "itemCount": 12
      }
    ]
  }
}
```

Create Favorite Folder

- **Method:** POST /favorites/folders
- **Auth:** Required
- **Request Body:**

```
{
  "name": "My Courses",
  "description": "Courses I'm taking",
  "color": "#2ECC71"
}
```

- **Response:** { success: true, data: { folder: {...} } }

Update Favorite

- **Method:** PUT /favorites/{favoriteId}
- **Auth:** Required
- **Request Body:**

```
{
  "folder": "New Folder",
  "tags": ["updated", "tag"],
  "notes": "Updated notes"
}
```

- **Response:** { success: true, data: { favorite: {...} } }

Update Favorite Folder

- **Method:** PUT /favorites/folders/{folderId}
- **Auth:** Required
- **Request Body:**

```
{  
  "name": "Updated Name",  
  "description": "Updated description",  
  "color": "#007BFF"  
}
```

- **Response:** { success: true, data: { folder: {...} } }

Delete Favorite Folder

- **Method:** DELETE /favorites/folders/{folderId}
- **Auth:** Required
- **Response:** { success: true, message: "Favorite folder deleted successfully" }
